

P6Community: Empowering Home & Community Care with Precision and Compassion

Transforming Care Delivery with Integrated Details

Leecare's P6Community, a vital component of the Platinum6 suite, is redefining home and community care management. This advanced platform integrates the capabilities of care, finance, operations, staff including credentials and education sync'd with client needs, mobile apps for staff and clients/loved ones, into a cohesive solution that enriches care provision through sophisticated technology.

Effortless Integration for Comprehensive Care

P6Community harnesses the power of integrated functions to provide unparalleled support for care providers and recipients. It covers every aspect of Care and management, financial operations, to mobile care delivery and personalized care planning

P6Community: Integrated Care Management Redefined

Benefits to your organisation:

- **Enhanced Operational Efficiency:** Automate and integrate care and financial processes for streamlined operations.
- **Improved Care Quality:** Deliver personalized, informed care with tools that facilitate real-time communication and data access.
- **Financial Clarity and Compliance:** Navigate the complexities of billing and funding with a comprehensive financial management system.
- **Engagement and Satisfaction:** Deepen engagement with clients and families through transparent, interactive care planning and communication.

Leecare's P6Community: The Ultimate Platform for Empowered Home & Community Caregiving

P6Community

Key Features

- Empowered Care Teams with all details at their finger-tips: With our P6Mobile App, equip staff with GPS and Service Allocation details, on-the-go data capture and communication, client signature sign-off and auto-sync'd charges when the service is marked as complete
- Engaged Care Recipients whose goals and plans are reflected and followed: The P6MyCarePlan App provides clients and their loved ones an interactive platform to voice preferences and goals, that creates the person-centered care plan, share photos and documents, and actively engage in their care journey
- Unified Detailed Care Management that meets Quality Standards: Streamline operations with a system that unifies and automates billing, care and staff management with care planning
- Automated Financial Mastery: Leverage P6Finance's robust and automated capabilities for seamless client Budget management, program reconciliations and reporting

Client Care Requirements Sync'd With Staff Availability and Credentials Sync'd with Client Budgets and Program Funding reconciliations – all automated and easy to View

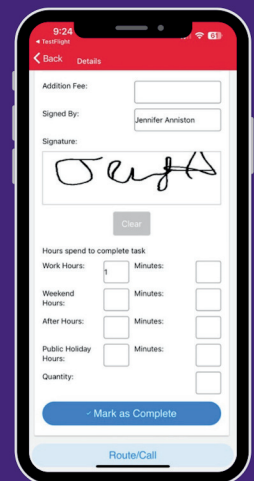

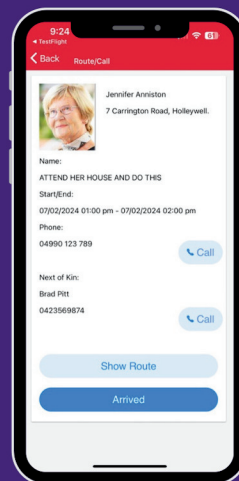

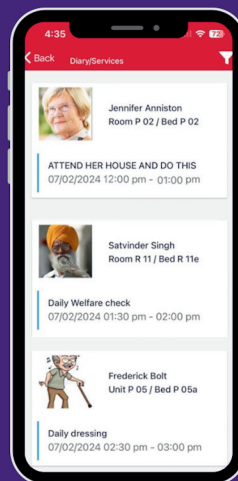

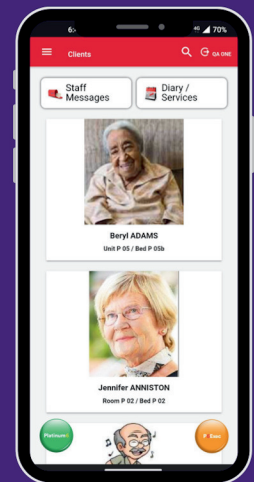

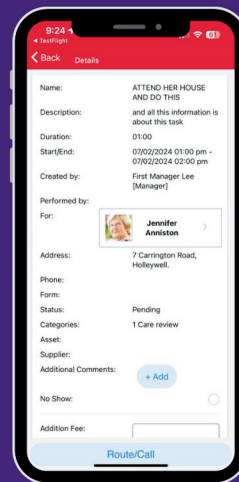

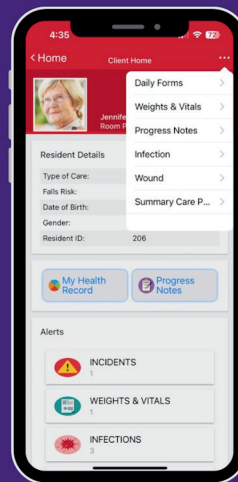

Empower, Engage, & Excel with P6Community for Comprehensive Care, Staff Allocation & Budget Management

Discover how P6Community can transform your organisation's approach to Home & Community Care

P6Community uses the Easy Sophistication of our care and lifestyle software features used by providers since 1997, auto-linked with Platinum6 staff who have the required credentials, who are available at the right time, to provide the auto-calculated set of services within Budget requirements.

Our all-in-one program and Apps functionalities ensures congruent data but also congruent services are set within budgets, with unspent funds alerts and automated PRODA reconciliations.

Staff can 'auto-sign off' services provided, with the ability to obtain client confirmation signatures at home.

Contact us for an obligation-free demonstration and embrace the future of care delivery with Leecare's innovative solutions.
